RETRACTABLE CLOTHESLINE

CONSTRUCTION:

Cover housing- 22 ga. type 304 polished stainless steel.

Cover base panel- 22 ga. type 304 stainless steel.

Cover housing knob- Chrome plated brass.

Base panel wallplate- 16 ga. type 304 stainless steel.

Cord knob retainer plate- 24 ga. type 304 polished SS.

Cord knob- Chrome plastic.

Cord- 8 1/2' nylon.

INSTALLATION:

Secure base panel wall plate (set screw side up) to stud or solid backing with mounting screws provided. Slip cover/base panel over wall plate and tighten set screw until secure. Secure cord knob retainer plate on opposite wall with mounting screws provided.

OPERATION:

Pull out clothesline cord and hook cord knob into retainer plate on opposite wall. Turn cover housing knob clockwise to lock nylon cord in place. Nylon cord retracts on spring actuated reel when cover housing knob turned counter-clockwise and cord knob is removed from retainer plate.

SPECIFICATION:

Retractable clothesline shall be model CW42RCL by CWECO, Inc.
